# STUDENT REFUND AUTHORIZATION FORM 2012-13

Students who receive Title IV funds are required to complete a Federal Aid Authorization Form as part of their financial aid package.

- You have the right to use federal financial aid (Title IV) funds to pay for allowable charges other than institutional charges.
  - Federal law allows you to authorize the University of Tampa to use your financial aid funds to cover other allowable charges which include but are not limited to: health insurance, parking permits, payment plan processing fees, returned check fees, late fees, and book charges.
  - You have the right to apply federal financial aid funds to prior year charges, not to exceed \$200.

In order for the University of Tampa to apply federal financial aid to your UT student account, you must authorize the following:

**(Check only one option)**

- I authorize the University of Tampa to use my federal financial aid credit balance to cover tuition, fees, room and board and all other institutional charges. *(ex: book vouchers)*
- I authorize the University of Tampa to use my federal financial aid to cover **only** tuition, fees, and room and board.

Students with outstanding balances at the end of the current semester will not be eligible to register for subsequent semesters until the balance is paid in full.

My signature on this form indicates that I have read and understand this information. *(Your authorization or limit of authorization will remain in effect until written notice of change is received.)*

Please check here if you are changing your refund authorization.
