THE PURPOSE OF CONDUCT SYSTEM BOARDS

The University Conduct System was established on our campus so that students charged with violations of University regulations would have the opportunity to present their cases before a board primarily consisting of other students who must live by the same set of community standards. In this way, students charged will have a determination made on their charges by persons who can identify with their viewpoint.

The Conduct System is concerned largely with interpretation and enforcement of University regulations as printed in The Students Rights and Responsibilities, but it may also deal with any other regulations printed in official University publications and contracts, or posted on official bulletin boards.

It is also the purpose of the Conduct System to support any student charged with alleged violations of University regulations. Thus, guidelines have been designed so students understand the process as outlined in The Students Rights and Responsibilities; proper notification of charges, hearing, and sanctions; and hearings are conducted in a fair and impartial manner.

Good Luck!
