The University of Tampa alumni community is now your global network — your lifelong Spartan family for friendship and support. We look forward to welcoming you back for Alumni Weekend, Gasparilla and the many cultural, athletic and scholarly events that make this University so vibrant. Wherever life takes you, there's a Spartan community waiting to connect. And when you are able, I invite you to give back, through your time, talent and treasure, to support the generations of Spartans who will follow in your footsteps.

To the families and friends who have supported today's graduates — thank you. Your encouragement, sacrifice and belief in them made this day possible. You, too, are part of our UTampa community.

As president of this remarkable institution, I see boundless promise in each of you and in the future of the University of Tampa.

12:30 P.M. CEREMONY

**Maria Weizer**

Class of 1996

*Co-founder, Redan Strategies*

Maria Weizer earned a Bachelor of Science in chemistry from the University of Tampa in 1996, after which she commissioned as an officer in the U.S. Army Medical Service Corps through ROTC. During her time at UTampa, she was actively involved in campus life as a resident assistant, an experience that helped shape her commitment to leadership and service.

After serving in the Army, Weizer transitioned to a civilian career as a technician and manager in college chemistry laboratories, where she applied her scientific training daily. She later brought that same analytical mindset and research skill set back to the defense and government relations sectors, most recently serving as the co-founder of Redan Strategies, a defense consulting firm, before her retirement last year.

Beyond her professional accomplishments, Weizer has devoted many hours to STEM education, volunteering as a coach for Science Olympiad and Science Bowl teams at the middle and high school levels. Weizer also remains deeply connected to UTampa, currently serving on the Alumni Association Board and the Alumni Campaign Steering Committee.

Weizer is married to fellow UTampa alumnus Paul Weizer '94, an Army veteran, and together they raised two children. After 11 moves around the United States and overseas in support of Paul's military career, the Weizers now make their home in Tampa, where they proudly support the University of Tampa community.

## ACADEMIC REGALIA

The tradition of distinctive academic regalia worn at commencement ceremonies originated at European universities in the 12th century and evolved to the mortarboards, gowns and hoods worn today.

Academic dress has been used in American schools since colonial times, but not until around 1885 was it widely used at commencement exercises. By 1895, the Intercollegiate Commission had prepared a code that provides for three types of gowns: (1) a bachelor's gown with long, pointed sleeves; (2) a master's gown with long, closed sleeves having arcs near the bottom and slits for the arms; (3) a doctor's gown with full, round, open sleeves. The velvet trim may be black, or it may be the same color as the velvet edging of the hood, indicating the discipline.

The hood, the most distinctive feature of the American code, signifies the degree held and the university granting it. Hoods are lined with silk in the colors of the institution conferring the degree. The color of the velvet border indicates the degree's discipline.

Red, the traditional color of the church, indicates a degree in theology, while green, the color of medicinal herbs, stands for medicine. Among other colors representing academic disciplines are brown for fine arts; dark blue for philosophy; golden yellow for science; pink for music; and purple for law.

At the University of Tampa, master's and doctoral candidates wear hoods. Some of the colors you might see include:

**Apricot:** Doctorate and Master of Science, Nursing

**Crimson:** Master of Arts, Professional Communication, Social and Emerging Media

**Drab:** Master of Business Administration, Executive Master of Business Administration

**Gold:** Master of Science, Accounting; Business Analytics; Criminology; Cybersecurity; Exercise and Nutrition Science; Finance; Information and Technology Management; Marketing; and Entrepreneurship

**Light blue:** Master of Education, all degrees

**Medicine Green:** Doctor of Medical Science

**Sage:** Master of Physician Assistant Medicine

Colored cords represent various honor societies and programs. Bachelor's degree candidates graduating with honors wear gold cords and may wear a medallion. A student graduating from the Honors Program wears a medallion on a red and black ribbon, and a member of the Phi Kappa Phi national collegiate honor society wears a medallion on a royal blue ribbon. A member of the Psi Chi psychology honor society wears an antiqued platinum medallion on a navy ribbon. Student-athletes who are members of the national college athlete honor society, Chi Alpha Sigma, wear a bronze medallion on a black ribbon.

## HISTORY OF THE MACE

In medieval England, when officials or monarchs traveled from one castle to another, they were accompanied by a military force. At the front were the inexperienced troops, who generally were arranged by seniority with the most junior in the lead. In the academic procession, this group is represented by the students, with the bachelor's candidates in the lead, followed by the master's candidates. The nobleman, represented in the academic procession by the president of the university, marched near the center, immediately followed by a trusted bodyguard, who carried a very formidable weapon, the mace.

The mace was a heavy club with a spiked or flanged metal knob at one end, used chiefly by knights to crush the armor of opponents. By the 14th century, the mace had become mostly ceremonial. In academic processions, the mace is carried by a distinguished member of the faculty. At UTampa commencements, the mace is carried by the marshal.

The original UTampa mace was made by James Bignell of UTampa's industrial arts department at the request of David Delo, UTampa's fifth president. It was wooden, painted black and trimmed with gold.

When B.D. Owens became president of the University in 1971, he wanted a new mace for his inauguration. David Dye, a local artist and an art instructor at Hillsborough Community College, was commissioned to do the design and casting.

After researching the history of the mace, Dye decided to make UTampa's mace javelin-like with a minaret shape on top. The mace took nine months to complete. The head is very thick, made with pure silver over a concrete center. The silver was garnered through a silver reclamation process from old X-ray negatives

from St. Joseph's Hospital and other local hospitals. The handle is made of walnut, weighs 15 pounds and measures 43 1/4 inches.

The mace is secured in the Office of the President when not being used for official University functions.

The mahogany batons carried by the assistant marshals were designed and crafted by UTampa Professor Emeritus Richard Gude. They feature a hand-carved stylized minaret at the top, patterned after the mace carried by the marshal. These batons are topped with a solid brass tip, hand-turned from brass stock.
