

# on campus bicycle registration information

## Reasons to register any bicycle used or stored on campus

- 1) To ensure that we can identify you if there is an attempted theft of your bicycle. The thief can't be prosecuted without being able to prove the bicycle doesn't belong to him. (He may get to keep it.)
- 2) If the bicycle is found off campus by the police and they see the UT registration sticker, the police can check with Campus Safety and return your bicycle because the serial number and registration will be in our files.

## How to register your bicycle with Campus Safety

- 1) Log on to SpartanWeb and click on Campus Life.
- 2) Click on Safety and Security, this will take you to the online bicycle registration form.
- 3) You will need your bicycle serial number or the registration process will not be complete.

*See reverse side for help locating your serial number.*
